About Your Eco-Schools Progress

Answering the questions below will give our assessors a clear idea of your Eco-School **progress** experience. You will find the Green Flag status and recommendation report helpful to help you gauge if your school is ready for the renewal of the Green Flag Award.

Please note: Your Eco-Schools file documenting all your activities since the time you received your Green Flag will be reviewed at the time of assessment.

About Your Eco Committee

1. Please explain in details the progress that you managed to achieve against the recommendations mentioned in the Green Flag Status report which was sent to you after the last assessment visit.
2. Please attach soft copies of all the evidence related to the above with this application, and submit the hard copy to the assessors at the time of the assessment of your school.

About Your Environmental Review

Our recommendations in our report

Actions that has been done to achieve the recommendations

Please explain in detail the progress that you managed to achieve against the recommendations mentioned in the Green Flag Status report that have sent you after the last assessment visit.

Additional Information

Please add any additional information that you feel is relevant, including how the school manages litter, if this is not covered earlier.

Kindly we would like The principle of the school to answer the following questions:

1. Do you see any change in students' attitudes and behaviours towards sustainability issues, especially after being part of the Eco-Schools programme and being awarded the Green Flag? If Yes, we would be happy to hear your experience in this regard.
2. Has there been any improvement in teacher participation for the Eco-Schools programme after the Green Flag award?
3. How useful has the Eco-Schools programme been in integrating sustainability practices within your school development plan?
4. How useful has the Eco-Schools programme been in integrating sustainability practices within your school development plan?
